PM150-CO₂

PM150-CO₂

Advanced disposable single-gas, personal monitor for Carbon Dioxide

The PM150 is a low maintenance, rechargeable single-gas monitor that protects workers by providing exposure detection for carbon dioxide in many different applications. The PM150 continuously monitors ambient air conditions and provides real-time gas concentrations on an easy to read LCD display. A three-tier alarm system warns the user of the presence of unsafe carbon dioxide levels with audible, visual, and vibrating alarms. The units low, high, STEL and TWA alarms can be adjusted via the mini USB charger and software.

Key Features

- Visible calibration status
- Maintenance-free
