

Ultra-Drain Guard® Reusable Model

Installation

- Step 1:** Install Drain Guard in catch basin, making sure emptying straps are laid flat, outside the basin and held in place by drain grate.
- Step 2:** Hold down removal flap pockets and emptying straps by covering with soil.
- Step 3:** Properly installed, Drain Guard is out of sight and catches silt without the worry of silt fences or straw bales failing.

Removal

- Step 1:** To prepare for emptying Drain Guard, remove soil covering removal flap pockets and insert rebar through pockets.
- Step 2:** Remove catch basin cover grate.
- Step 3:** Remove Drain Guard from catch basin by attaching to both bars and lifting with available equipment.
- Step 4:** Move filled Drain Guard to dumping area and place on the ground.
- Step 5:** Insert a lifting bar through both emptying straps.
- Step 6:** Lift Drain Guard by emptying straps, which are attached to the bottom of the bag. When raised by the straps, bag will turn inside-out and empty.
